FIND THE PERFECT BALANCE

Pharmacy Benefits | Choices | Performance

Our online Benefit Preferences Tool lets you weigh all your options

NEW ONLINE TOOL OPTIMIZES YOUR PBM BENEFITS, CHOICES AND PERFORMANCE

Now there's a real-time interactive resource that lets you take control of the never-ending challenge of confronting a dizzying array of PBM choices. Introducing the Benefit Preferences Tool from Prescription Solutions. It's the fast, convenient way to get a clear picture of your company's preferences – and choices – for everything from plan structure and formulary, to network access, mail service, clinical programs, and much more.

In just 15 minutes, build the ideal pharmacy plan

Using the Benefit Preferences Tool is easy. Our web-based program asks a series of questions to determine your company's pharmacy program requirements and preferences.

This rating resource will help you weigh priorities like expanding copay tiers, boosting utilization of less expensive drug delivery options, increasing member compliance with prescribed treatments, and lowering overall net drug costs. Our comprehensive program is so user-friendly, you'll have the answers you want in minutes.

PBM solutions personalized to your needs

The Benefit Preferences Tool weighs all your responses and presents specific recommendations for how Prescription Solutions can meet your pharmacy benefit needs and objectives. It shows you a benchmark comparison of your responses against those of your peers. And, you'll even be given the opportunity to request that one of our professionals contact you to discuss your results in more detail.

It's designed to help you prioritize your plan requirements and preferences.

Indicate your preferences for a number of benefit scenarios.

The perfect balance begins with Prescription Solutions

Prescription Solutions is one of the country's leading pharmacy benefit managers. As your dedicated partner, Prescription Solutions is committed to delivering consistent value and quality to employers and employees alike. Our overriding goal – to improve health and maximize outcomes for our members – was a driving force behind our development of the Benefit Preferences Tool.

Our Benefit Preferences Tool helps you:

- ✓ Simplify the complex buying process
- ✓ Balance cost containment, improved outcomes, and benefit maximization
- ✓ Use real-time analysis to determine what your company really needs
- ✓ Get customized solutions that match your pharmacy benefit priorities
- ✓ Increase pharmacy benefit plan satisfaction
- ✓ Understand the full spectrum of products and services offered by Prescription Solutions
